

## An Immersive Learning Experience Like Never Before

*Learn to think like a hacker & how hacks are done. Become cyber smart.*

For four days, you will be transported to the “hacker’s den” where you will role play with Meta goggles, an attacker.

You will walk away with unique learning found nowhere else.

### KEY TOPICS COVERED:

- The Attack Surface
- Cyber Attack Chain and the Signals
- The Two Primary Attack Methods:  
Why and How
- Lateral Movement and Exploits
- The Triple Threat:  
Ransomware, Data Thefts  
and Backdoors
- How to Thwart the  
Attackers: Why and  
How

July 17 - July 20  
From 10am to 3pm

Technology Center,  
TERI Campus San Marcos

Ideal for 7th - 12th grade students  
This is a must-attend for all students,  
not just those in STEM

### What’s included:

- Lunch will be provided.
- Cybercamp Badge and Certificate of completion.
- Meta goggles to use during Camp and to take home, complimentary.
- Critical cyber knowledge you must have to be successful in today’s digital world.

**Tuition: \$500**

*100% of the proceeds benefit TERI, a non-profit serving kids and adults with special needs. TERI thanks CyberCatch for their generous sponsorship of CYBERCAMP.*
